

66. (New) An isolated polypeptide comprising a sequence selected from the group consisting of sequences having at least 70% identity to SEQ ID NO:525, wherein the polypeptide is expressed in prostate tissue at levels that are at least two times greater than those found in other normal tissues.

67. (New) An isolated polypeptide comprising a sequence selected from the group consisting of sequences having at least 90% identity to SEQ ID NO: 525, wherein the polypeptide is expressed in prostate tissue at levels that are at least two times greater than those found in other normal tissues.

68. (New) An isolated polypeptide comprising a sequence selected from the group consisting of sequences having at least 95% identity to SEQ ID NO: 525, wherein the polypeptide is expressed in prostate tissue at levels that are at least two times greater than those found in other normal tissues.

69. (New) An isolated polypeptide comprising an immunogenic portion of SEQ ID NO: 525.

70. (New) An isolated polypeptide encoded by SEQ ID NO: 524.

71. (New) A composition comprising a physiologically acceptable carrier and a polypeptide according to any one of claims 65-70.

72. (New) A composition comprising an immunostimulant and a polypeptide according to any one of claims 65-70.
